CIP Construction:

- **E. Danieldale Rd. Reconstruction and Utility Improvements Project (Main St. to US-67)** – Subgrade is 99% complete. The Dallas Water Utilities water main passed BAC-T testing, and the final connection will be made this week. Lime treatment of the eastbound subgrade started on March 1, but has been delayed due to rain. Paving may be slightly postponed due to the cure time needed for lime treatment. PaveCon will notify affected residents and businesses of the nighttime paving and its impact. Nighttime paving is tentatively scheduled to begin on Monday, March 13, and will be done between 9:00 p.m. and 5:00 a.m. Concrete placement for the sidewalks and turn lane will occur after the nighttime paving is complete and during regular working hours. Presently, to allow sufficient cure time for the concrete, the eastbound lanes of Danieldale Rd. are anticipated to open on April 24, 2023. All completion dates are approximate and can be delayed due to weather and supply issues.
