PARKS AND RECREATION

Projects:

- The Duncanville Parks and Recreation Department invites you to stop by the Recreation Center beginning Monday, November 6, to pick up a piece of the beloved volunteer-built Kidsville playground pathway. Kidsville was built in 1989, and after 33 years of play, a new playground and splash pad will be added to Armstrong Park. - The GCAA/North Cedar Ridge at I-20 project is anticipated to be completed by mid-January. The \$190,482.10 is eighty percent federally funded and the State of Texas funds the remaining twenty percent. The project requires the contractor (Central North) to provide the city with a Traffic Control Plan and make routine inspections during the day and night to ensure work zone safety is top priority within the project limits. TxDOT will conduct weekly stormwater and environmental compliance inspections. The only financial obligation the City has is to provide a water tap to the project for irrigating the landscape materials. The project footprint will be approximately a half-acre, between Escuela and the I-20 westbound off-ramp. The landscaping of the project will include 8 shade and ornamental trees, and 243 ornamental grass and shrubs. The construction work being performed on this project will be a standard work week.
- The Red Bird restroom doors are scheduled to be repaired; we are waiting on the part from Automatic Doors, Inc.
- The Kidsville Splashpad concrete is scheduled to be poured on November 9 by Kraftsman.
